PROFILE

A motivated Software Engineering student at Universitas Gadjah Mada with a strong commitment to personal and professional growth. Thrives in dynamic environments and excels in project management, stakeholder coordination, and cross-functional team collaboration. Actively involved in multiple organizations, continuously strengthening leadership, communication, and technical skills.

EDUCATION

Software Engineering — Universitas Gadjah Mada (UGM)

July 2024 – Present

GPA: 3.78 / 4.00

PROJECT & ORGANIZATIONAL EXPERIENCE

Project Manager – Academic Information System (AIS)

August 2025 – November 2025

Universitas Global Nusantara

- Led full-cycle project management for a cross-functional team of 3 (UI/UX, Frontend, Backend) to develop an Academic Information System.
- Owned product planning and documentation: Business Requirements, MVP, SRS, Activity Diagrams, and Use Cases.
- Designed system architecture (C4 Diagram), managed project timeline, and reported progress via Weekly Reports.

Hustler / Project Manager – Panen In (Farming App)

December 2025 – Present

Independent Project

- Identified core user problems, defined solutions, and established KPIs for a farmer-focused mobile application.
- Led ideation, business model design, and product roadmap planning across a cross-functional team.
- Coordinated stakeholder communication and managed project milestones to ensure timely delivery.

Secretary – KOMATIK UGM

2025 – Present

KOMATIK UGM

- Drafted proposals for room loans, official recommendations, and other administrative documents.
- Managed official correspondence and documentation to support organizational activities.

Hustler – Google Developer Groups on Campus UGM

February 2026 – Present

GDGoC Universitas Gadjah Mada

- Participated in 'Bridge the Gap: Mini Hackathon – Tech for Social Impact' as the team Hustler.
- Led problem discovery, defined the solution narrative, and contributed to ideation, design, and prototype development.
- Collaborated in a cross-functional team (Hustler, Hipster, Hacker) to deliver a socially impactful tech solution.

Project Manager Job Simulation – Siemens Mobility (Forage)

March 2, 2026

Forage Virtual Internship

- Completed a job simulation involving comprehensive project management for Siemens Mobility, focusing on KPI development and dashboard management.
- Developed strategic KPIs to enhance monitoring of rail infrastructure projects, ensuring alignment with Siemens Mobility's goals.
- Utilized Microsoft Excel and data visualization techniques to create and update project dashboards for stakeholder communication.
- Demonstrated adaptability and problem-solving in real-world scenarios, navigating construction challenges and stakeholder feedback.

Sub-Coordinator – PSDM Division, PCC SV UGM

February 2025 – December 2025

Penalaran Center Community, SV UGM

- Led planning and execution of PCC's First Gathering event as appointed Event Chair.
- Managed the design, coordination, and distribution of PCC's korsa (uniform) for all members.

- Represented and substituted the Division Coordinator in core meetings as needed.

Secretary – ASSETS UGM

March 2025 – December 2025

Association of Software Engineering Technology Students

- Drafted and managed official letters and internal correspondence.
- Prepared and maintained meeting minutes and records.

Publication & Field Research Team – Lecturer's Community Service Project

August 2025 – November 2025

Dept. of Electrical Engineering & Informatics, UGM

- Conducted field research and in-depth interviews with local culinary business owners and community leaders.
- Processed interview data into primary content for a local wisdom promotional video.

EVENTS & ACTIVITIES

Script Writer – PALPOD UGM Podcast

September 2024 – December 2025

- Wrote and edited engaging scripts for podcast episodes; conducted research on diverse topics and guest backgrounds.
- Collaborated with hosts and producers to develop episode themes, structures, and creative ideas.

Event Staff – PCC Road to Mapres

November 2025 – December 2025

Penalaran Center Community

- Contributed to defining event themes, drafting talk show questions, and served as technical/visual operator.
- Collaborated with the team to deliver a professional and engaging experience for participants.

Secretary – Software Engineering Oriented Study (SERIES)

August 2025 – September 2025

- Managed all official letters, TOR, and monitoring documentation; maintained meeting notes and secretarial records.
- Contributed to the smooth organization of the major's orientation program through efficient secretarial support.

Head of Committee – PCC First Gathering

April 2025 – May 2025

Penalaran Center Community

- Led planning and execution of a gathering for 50+ committee members.
- Developed event rundown, wrote MC scripts, managed timekeeping, and analyzed participant feedback.

Security Staff – Tech Enthusiast Day 2024

September 2024 – November 2024

KM DTEDI SV UGM (National Scale Technology Competition)

- Maintained a safe event environment, assisted in crowd management, and ensured compliance with safety regulations.

SKILLS

Languages: Bahasa Indonesia (Native), English (Intermediate)

Technical: Microsoft Office, Excel, Canva, Python, HTML, CSS, JavaScript, PHP, JIRA

Soft Skills: Leadership, Effective Communication, Team Collaboration, Time Management, Problem-Solving, Stakeholder Management
